Light Bulb Comparisons

BULB TYPE/ WATTAGE	INCANDESCENT EQUIVALENT	LIFE SPAN	ENERGY SAVINGS
Spring Lamp Fluorescent	100 Watt Bulb	10,000 hours	75%
Mini Spring Lamp Fluorescent	60 Watt Bulb	10,000 hours	77%
3-Way Fluorescent	50/100/150 Bulb	10,000 hours	75%

The compact fluorescent light bulbs produce the same amount of light as their incandescent counterparts, but cost about 1/4 as much to operate! This in turn consumes 100 lbs. less coal, reducing CO₂ emissions by 300 lbs. and other acid rain producing emissions by 4 lbs.

Like these bulbs?
